August, 300 quid

by Amy-Mae Elliott published on 26 June 2007

Kotaku reports that Spanish site La Trifuerza are claiming Microsoft has told them the Xbox 360 Elite console will hit European shores on August 24 for 449.95 euros, which in real money is just over £300.

Don't get too excited though - Microsoft are still tight-lipped on any official news.
