Sony gets girly with Hana prototype petal-shaped speakers

"Alright, petal?"

by Amy-Mae Elliott published on 24 July 2007

"Hana" means flower in Japanese and that's what Sony has dubbed this fauna-inspired prototype.

A silver-plated flower petal shaped LED lamp doubles as MP3 playing speakers.

We're not convinced these'll make it into production, and by her slightly uncertain look, neither is the lady in the pic.
